PIANOS & MELODEONS.

G. W. KIBBEE.

W HO has been for many years located in Tennessee as a Tuner and Regainer of Pianos, would respectfully call the attention of the musical public to the fact, that he vis. ted New York last year for the purpose of making arrange-ments with the best Piano Forte makers to sell their Instru-ments. After spending several weeks in that great metropolis, visiting the different manufacturers of note, he came to the conclusion—and who might be judge in this case if a Tuner of t relve years is not?—that the Pianes of of Lighte, Newton & Bradbury's should be preferred to all thers. He accordingly made an agreement with them whereby he is enabled to furnish Finnes at retail cost in New York, freight and charges added, so that every one who buys of him may know that he is not paying more for his article than he would be charged by the manufacturers themselves if he were to vivit them in person. This House is making twenty Planes per week, a much greater number than is made by any other in the United States, and for JAMES JOHNSON, purity and volume of tone and fineress of finish, both inside and out, the proof is that they stand wholly unrival-led. These Pianes were awarded the first premium by the Incies of the World's Fair and the Pair of the American Institute in 1853. Among the many Musicians and Ama-teurs who have from time to time examined these Instru-ments, testified to their superiority, and recommended them to their friends, are Lower. Mason and Thos. Hastrass, of world-wide calebrity, H. C. Tinn, President of the Phithar-monic Society, N.Y., Theodoras FL-Firld, canductor of the Phitharmonic Society, N.Y., Georgie F. Foot, jurar in the Fair of the American Institute, in 1853. J. Leari, U. C. Hill, F. H. Nase, Frward Hows, Jr., &c., &c., Gao, J. Wenn, of Botton, the well known and popula Teacher and Composer, after examining these Instruments and testifying to their entire superiority, opened a House in Boston, the central point of the once renowned Chicker ing, and within a short time sold upwards of Forty Pianos to his music I friends and acquaintances, many of them of the highest style and fini h-\$600 or \$700. This is the first New York Piano Agency ever established

Gao F Busrow, of New York, the distinguished com Harmonic Society to select the heaf Piaro that could be made for their use. He gave the preference to highter Newton & Bradbury's "large scale" over all others Grand's not excepted, and purchased one for the use of the Society.

But Mr. Kimass deems it unnecessary to multiply words to the people of Middle Tennessee. The fact, that he has been for many years a successful Tuner among them, and has met with, and Tuned and Repaired Planes of every make, should inspire confidence in his judgment; and the fact that he regularly visits them I wice a year would show that it is more to his interest to sell them a good Plate than it could be to that of any other dealer. As to the price and quality of these Planos, Mr. Kronse exhibits the price had quality of these ranos, Sr. Armas exhibits the price list and description of the Makers, which contains twenty different styles at prices, ranging from \$250 to \$500, author Ware Rooms, No. 421, Broome Street, New York. So there can be no decestion practiced with reference to price or style of finish, although the Planos are not teen until de iveren, and he is authorized by Meisrs, Lighte, Newton & Bradbury to give warrantee; of all their Pianos Mr. Kinnse also visited the well known Melodeen Fatab lishment of Carhart, Needham & Co., No. 97, East 254 St., New York, and made an arrangement with them to furnish Melodeons, so that he can seil them at their New York retail prices, freight added. These Instruments have become very popular in the Eastern and North-Western States, and

truly deserve the notice of all these who are "Charmed by concord of sweet sounds." He has also an arrangement with the firm of Firth, Pond & Co., New York, which ensures him to furnish Sheet Music and small Musical Instruments at New York pieces. All communications from the courry on the subject of Planes or Melndeons or of Tuning and kepairing will be promptly attended to Ramiles residing in the city own leave orders at my residence, opposite Odd Fellow's Hall, or address through the Post-Cffice, G. W. KIBBEE, March 11, '57, -1y.

The Swattan is in command of superior and experienced officers, and will omit no honorable inducement to secure a

fair proportion of the trade RUSSEL & CLAIBORNE, Accuts, feh?-s Corner Broad and Front ets , Nashville PAGE'S PERPETUAL LIME KILN.

THIS KILN will burn four hundred bushels of Lime-Stane (which, if good stane, is equal to one thousand bushels of stacked lime) in twenty four hours, with lour conds of mood, and is perpetual in its operation, the lime being drawn once in three to six hours, from the base, and replenished at the top of the capola. This is but the ordinary every day enparity of the Kim as has been assiptantly demonstrated by these already in operation. As also makes much better time than that burned in the ordinary way, all the atoms being perfectly burned.

An number of relians correlated to the capacity of the Kim, and any other information to reference to it, will be introded, on application by letter trailerwise, to the subscriber, who is agent for the calc of regular and pus-ling up Kilmain the State of Tennessee.
